Hidden object games for pc offline

Hi everyone, I've been looking to buy cod world at war for the old zombie maps for pc. I know that there are many ways to use a controller on pc, but I don't really know how ... As can I somehow use an xbox controller to play ... any idea? thanks =)
One of the best ways to escape 2020 is dive into the best free games available right now. It doesn't matter if you just want an afterwork game or a deep dive into another world, you can do just that without spending a bunch of money to do it. Just because they're free doesn't mean they're not as fun as paid games. In fact, depending on the game, you can enjoy it even more. But beware, as some of them make their money through microtransactions and loot boxes, that could end up taking more of your money than a paid game could. With all the different options out there, whether you're watching co-op PC games, the best PC games out right now, Steam's deep catalog, or even EA's Origin client, you can get a lot of mileage out of the best free games for PC. With all the money you save playing the best free games, you can spring for one of the best game PCs to play them. Whether you want to take on enemies in Battte Royale extravaganzas like Fortnite or play CCCs like Hearthstone, here are the best free games you can play right now. Linux, Windows or Mac - which is best for you? (Photo credit: Phoenix Labs) Idle Big Devil from Hong Kong Spark Software may still be in Early Access, but the inactive RPG game has already received many rave reviews from Steam players. While it's an inactive game, which allows you to go through the game without much interaction, there are many things to do while you wait, so i never gets boring. You'll also get plenty of free currency in the first game, giving new players a chance to develop quickly. In this game, you are appointed by the king as the master of killing the undead and creatures possessed by evil spirits. You do it using a total of five heroes that you recruit yourself during the game. When you travel on the continent, you can participate in various events that allow you to collect loot, as well as complete daily tasks that reward you with prizes. You can also pool resources to drive up your heroes and upgrade your castle. Idle Big Devil gets a little complicated and harder as you progress, and you get to a point where you have to decide whether to spend money or endure a slower progression in the game. But this game can be completely free to play, if you choose not to spend money. Previous page 2 of 23 Next previous page 2 of 23 Next The Battle Royale is huge right now and Epic Games has refined to perfection with Fortnite Battle Royale. Originally designed as a kind of add-on for Fortnite, Fortnite, Royale blew up in a way that no one expected and quickly became among the best free games 2020 has to offer. Fortnite Battle Royale is entirely based on a simple scenario: you are dropped in a map with 99 other players in a free-for-all melee, and the last left standing at the end wins. Due to its meteoric success, Epic Games works hard to integrate new game modes and new features smoothly. Take Playground mode, for example - it lets you in on the map and allows you to build up structures for a certain period of time before the floodgates open and the carnage begins. What's particularly cool is that with Fortnite, you can actually play with your friends, no matter what platform they're on. Whether you're on PC, Xbox One, iOS, Android, or PS4, you can match up to millions of other players from all these different platforms. Play Fortnite Battle Royale for free 2. The Dota 2 Dota universe may have evolved from a WarCraft 3 mod, but Dota 2 is very much its own device and holds its own as one of the best free games of 2020.This top-down arena bttler is very dynamic, drawing in multimillion-dollar prize money for serious tournament players. Yet it's not just for the most hardcore players. A short guide now shows you how to play, with the Steam community offering guides to the original MOBA. Don't expect a warm welcome or a simple learning curve from the complex gameplay. But bring some friends, and Dota 2 will have you hooked on one of the biggest crazes in PC history. Path of ExilePath of Exile is a free dungeon crawler that can remind you of Diablo III, and it's quite different than most of the best free games available in 2020. It's not just about fragging real people until they scream at you in shrill pubescent tones through their skype headsets. Path of Exile takes its time, more than your standard multiplayer game. But give it a chance and you will find yourself obsessed. There are hidden mechanics and features to discover after playing for hours, as well as a huge skill tree to slowly develop through. It really is the best free game for former Diablo addicts. Even basic loot can be useful since it is the opportunity to improve even the simplest weapon with magic. League of Legends' automated matchmaking, sundry cast of characters and exquisite maps has made it a multiplayer behemoth in recent years, and one of the best free games 2020 has that will certainly stand the test of time. It's an aggressive gaming experience to be sure of, but one that rewards good teamwork and careful tactics. It's quite a learning curve too, but you'll be taken on an exciting trip shortly after pressing the game. Like Dota 2, League of Legends attracts many high-end players, and the best tournaments offer prize pools of over \$1 million. The crazy world of esports, eh? Play League of Legends for free6. Hearthstone: Heroes of WarcraftEver played Magic the Gathering? Hearthstone is Blizzard's attempt to build an online version of it, for free. As a typical Blizzard offering, this is really impressive. It's instantly tempting, lacking the intimidating learning curve you expect from an online fantasy card game. Hearthstone plays fast, has a very casual visual approach and benefits from a basic set of rules, all of which add up to a very accessible short battler that gives you a lot of fun – especially if you're a World of WarCraft fan. Not that it's not challenging too, especially if you're going against an opponent who plays their cards right, which is why it gets our vote for one of the best free games to date. It is not the full-fledged experience you from full entries to the series. However, Forza Motorsport 6 Apex is the best free bet we could have requested from Microsoft's long-running racing series. Shunned by petrol heads and embraced by players, Forza Motorsport may seem like an arcade-y offshoot of its biggest rival on PlayStation, but it looks consistent and feels incredible, which is reason enough to add it to our best free game 2020 list. It offers a remarkably similar experience to that free and easier on your PC. Drifting away from the clear environmentalist focus of Monster Hunter: World, where you try to preserve habitats, Dauntless simplifies things a little, just task you with killing behemoths to protect a human colony. The gameplay itself is much more straightforward too, free from some of the more blunt gaming systems that you either love or hate in the Monster Hunter series. The core DNA of the series, on the other hand, is there - hunting monsters, craft gear, hunting more monsters, making it one of the best free games to play right now.10. World of TanksWorld of Tanks is another type of MMO, which you may have already guessed from the title. Team-based, massively multiplayer action with a wide range of war machines to run into battle awaits, with new players able to jump into the game right away. The upgrade system allows you to adapt, while surrounded by an entire army at all times to remind you that lonely people won't do it on the battlefield. But be warned: get sucked in and you may find yourself spending a hefty sum on large large pieces of virtual metal. Some premium tanks go for just a few dollars, while others require a little more coin. You can see where maker Wargaming makes some money from World of Tanks enthusiasts. Yet this doesn't stop that from being one of the best free games right now. It's an astonishingly approachable esports title, sitting somewhere between League of Legends and DOTA 2 in terms of complexity, but with the added bonus of playing characters you know and love. You read it correctly: the list consists exclusively of Blizzard characters from the entire library of classic games. If you've ever wondered who would win in a battle between Thrall and Kerrigan, Heroes of the Storm can show you how that battle plays out on the battlefield. Blizzard knocked it out of the park here, making it one of the best free games that keeps getting better by the day. Play Heroes of the Storm for free 12. EverquestII's future was briefly in question after the sale of Sony's online entertainment division in February: Everquest II backs with vengeance, swaggering with new expansion packs and continued support from Daybreak Game Company. It is one of the many reasons why it has made our best free games 2020 list. The first of its kind to commercially succeed with a 3D game engine, Everquest was released in 1999 as an MMORPG (massively multiplayer online role playing) and has since been documented as one of the most important games in the media's history. With ever-released expansion packs (quite massive in scale, at least early) with large new areas, races and classes, Everquest brings to the table just about anything you could want or need from an MMO. In addition, it is especially better to handle collaboration than the options. Previous page 8 of 23 Next previous page 8 of 23 Next First hailed as the game that would finally depose World of Warcraft, the Rift had its moment - and is still going strong depending on who you ask. It brought innovation to a genre that evolved very slowly, allowing you to change your class when the urge forced you. The whole game is focused on separating giant boss battles and events that live throughout zones. It's ambitious, exciting and monumental with dozens of interdimensional rifts that keep things exciting and unique from other MMOs. And even after the Rift went free to play, Trion has stayed on top of things, bringing out regular extensions for everyone to enjoy. In addition, you can ride a country hark.14. RunescapeRunescape is one of the largest free MMOs available, and now it's a good time for a deeper look. In 2013 it went into its third reboot - this is actually Runescape 3, even if you just jump in now, you may not even realize that it has been around in one form or another for more than 10 years. Despite the overhaul, it's definitely not the glittering MMO in the world, but hanging on to so many players shows it's doing something right. The big change introduced in Runescape 3 that made it seem much more up to date was the opportunity to look much longer. In Runescape 2, the horizon quickly gave way to fog... not so now. You can download the game for free or run it in your browser using Java, making it much more convenient than most other online role players on this huge scale. Previous page 9 of 23 Next previous page 9 of 23 Next If you've grown tired of the dark fantasy aesthetics of most MMORPGs, you'll love Maplestory's creative and inspired style. Described by Nexon as the original 2D side-scrolling MMO, Maplestory takes the classic Dungeons and Dragons-inspired genre and turns it into kawaii. The lighter tone and adaptation of Maplestory makes it feel more like harvest moon than World of Warcraft or Rift. And it has more emphasis on improving aesthetics than many other MMOs, so players get a lot more adjustment over what their characters look like. Maplestory even has in-game weddings and dinosaurs playing guitar. The only thing missing from it is an Oasis-inspired soundtrack.16. WarframeIf using the user cooperative shooters, Warframe can be one of the best free games available. Players take control of members of Tenno, an old race war against enemies such as Grineer, Corpus, Infested and Sentient. Tenno soldier uses a Crysis-style Warframe armor equipped with weapons or melee weapons to fight back. Better out than your usual free-to-play shooter, there's a lot of fun to be had in Warframe's player-vs-enemy raid - so much so that some players see it as. The Destiny that never was. High praise around. Previous page 10 of 23 Next previous page 10 of 23 Next Gods from each pantheon come together in Smite to duke it out in a free Dota/MOBA inspired clash. Although Smite is quite overt with its influences - it comes from the same developer who brought us FPS crush tribes Ascend, it's still a completely different animal. The camera is behind the characters this time, giving you a more direct connection to the action than just ordering your gentleman around with a mouse. But the idea will either be familiar if you have played their inspirations, or a way to get a feel for the style, if you have not. Gods include Zeus, Thor, Kali, Artemis and... Cupid? At least he has his own bow... 18. Lord of the Rings OnlineThere are so many MMOs that have been rereleased or re-released as free games. Lord of the Rings Online, however, is one of the titles that most deserves a different look. It's already an incredible game in itself, but it's also one of the more mature MMOs on the market. Eve OnlineII 2003 released Icelandic developer CCP Games eve game, an immersive and meticulous sci-fi experience that would eventually catch the attention of well over 500,000 players. Eve Online is unlike any game in its category due to the wide range of activities to participate in, as well as its (appropriately) out of this world in Eve Online's player base has shrunk since 2013. It shouldn't be surprising that as time goes by, fewer and fewer players are interested in paying a subscription fee for a glorified romsim with a steep learning curve. But since Ascension Update, released back in November 2016, Eve Online has gone free to play - at least to some extent. The new alpha clones system featured in Eve Online is like unlimited free trial feature in World of Warcraft. You can still engage with other actors in piracy, manufacturing, commerce, mining, exploration and combat, but there are limitations on certain skills that are off limits. But the level of success that Apex Legends has reached so quickly after launch speaks volumes. It has certainly earned its place on this list as one of the best free games. Not only is the game itself incredible, bringing unique mechanics from the amazing Titanfall games to a Battle Royale, but the game itself has reached over an incredible 25 million players in a week. Apex Legends places 60 players in the middle of a giant map, armed with a bunch of unique abilities that make both battle and traversal terribly dependent. From independent developer and publisher Freejam, Robocraft allows you to command jet cars (not jets and cars, but jet cars), tanks, flying warships, helicopters and drones. By doing so, you will spend much of your time participating in battles with other players online. As a vehicle-based fortnite, you will also play different combinations of 250 preset blocks using a single craft interface, so you can also equip the vehicle you choose with the weapons you choose. Similarly, Robocraft allows you to create or join clans with up to 50 members. Within these clans, you can invite friends to parties and play cooperatively in an attempt to beat other teams. When all is said and done and you are satisfied with your creations, you can show them off at the virtualized Community Robot Factory to get likes and shares. (Image credit: SEGA)43. Total War Battles: KingdomReal-time Strategy (RTS) games don't get much bigger than those in the Total War series, and the newest participant, Battles KINGDOM, is free to play. Available for gaming on OS and Android, as well as PC, you can pick up where you left off even when you're not on your main match drive. Total War Battles: The Kingdom is set at the end of the 10th century and combines army leadership with the kingdom building to deliver a bit-sized RTS game you can dive in and play anywhere, anytime.
